EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey Proehl (Reg. No. 35,987) on 3/29/06.

The application has been amended as follows:

In the Specification

At paragraph 1, line 2, after July 31, 2001, replace "(currently pending)" with "now abandoned."

In the Claims

At claim 8, lines replace lines 1-3 (i.e. the entire preamble of the claim), with "A computer readable storage medium having a program of instructions stored thereon, that when executed cause an information handling system to execute steps for assigning Internet Protocol (IP) addresses, the steps comprising:"

Art Unit: 2182

At claim 9, line 1, replace "The program of instructions" with
"The computer readable storage medium".

At claim 10, line 1, replace "The program of instructions" with
"The computer readable storage medium".

At claim 11, line 1, replace "The program of instructions" with
"The computer readable storage medium".

At claim 12, line 1, replace "The program of instructions" with
"The computer readable storage medium".

At claim 13, line 1, replace "The program of instructions" with
"The computer readable storage medium".

At claim 14, line 1, replace "The program of instructions" with
"The computer readable storage medium".

Replace claim 22 with the following:

22. In a local network of one or more hosts, a system for
assigning Internet Protocol (IP) addresses, comprising:
a processor;

Art Unit: 2182

KH

a memory coupled to said processor, wherein said memory ~~is~~ stores a list of available features for at least one host within the local network;

a display coupled to said processor, wherein said display provides said list of available features to a user;

an input device coupled to said processor, wherein said input device receives a selection by said user of one of said available features from said list;

logic executed by the processor, wherein said logic identifies hosts present within a local network, analyzing if said feature selected by said user requires a static IP address to be assigned to said at least one host, and

assigning an IP address to said at least one host, wherein a static IP address is assigned to said at least one host if said selected feature requires said static IP address.

Allowable Subject Matter

2. The applicant's arguments, see pages 9-11 of remarks filed 1/9/06, are persuasive. The rejections of claims 1-32 are withdrawn.

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest

Art Unit: 2182

alone or in combination a system and method comprising:
identifying hosts present on a local network, displaying a list of features for at least one of the hosts, receiving a selection of one of the available features, analyzing if the selected feature requires a static IP address, and assigning a static IP address to the at least one host if the selected feature requires a static IP address as required by the independent claims, in combination with the other recited claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
